

MAKE LEARNING BETTER

TALKING LEADERSHIP

WILLUNGA HIGH SCHOOL 2016

This is a four-part Leadership Development initiative designed for both rising and established leaders. Talking Leadership aims to develop new self-awareness and new skills that will enhance your personal and professional growth and translate into understanding and practice that will support Willunga High School to Make Learning Better.

Lynne Symons PSM

The four elements are:

Know Yourself - Lead Yourself

Presentation and Workshop that includes notes and short readings followed up by an online personality profile and then 1:1 meetings to debrief that profile. The workshop introduces the GROWTH model to participants.

Know the Work - Lead the Work

Presentation and Workshop that includes notes and short readings followed up by a short online feedback and then 1:1 meetings to debrief the feedback and consider areas for professional strategic development.

Know the Team – Lead the Team

Presentation and Workshop that includes notes and short readings and focusses on bringing the elements of the previous two sessions together to develop an iSMART goal for a real problem of practice. After the session there is the availability of follow up individual conversations around the progress around their goal.

Know the Talk – Lead the Talk

Presentation and Workshop that includes notes and short readings and focusses on the importance of the narrative – both personal and for the school. At this session we explore the key aspects of the conversations that are needed (could be performance management, strategic planning or..) and as a group come up with options around how the group could go forward. Certificates of Participation Awarded.
